To Whom it May Concern

I am submitting this letter of affirmation and review for the plating rectifiers (12V, 15000A, 480VAC, Air Cooled, Ethernet IP, American CRS) purchased through LSA Plating Products.

Niagara Piston has purchased a total of 21 (twenty-one) rectifier systems for our three (3) chrome plating lines over the past 4 years.

We have been very satisfied with the service, reliability, accuracy, after sales technical support, ease of programming and installation of the rectifiers.

The American CRS product is very robust and extremely reliable. We have not one single failure.

Dennis Abrahams as always been readily available for a very thorough analysis and guidance to any questions or inquiries made.

I can fully attest to the LSA sourced and supported rectifier and completely recommend this American CRS product.

I am available at your convenience should you require additional information.

Regards,

A handwritten signature in black ink that reads "Gino Carlozzi". The signature is written in a cursive, flowing style.
